

Designed to be different

25th January 2019

Mim was employed with us in the capacity of book keeper for 24 years. Her work involved sole responsibility for all aspects of keeping the company records, including sales/purchase ledger, payroll/subcontractors, vat, providing reports for the directors and dealing directly with customer queries. She also dealt with correspondence and other general office work. When we have had new systems she has been quick to gain understanding of these.

She is very reliable, efficient and always pleasant with both customers and colleagues alike.

Had it not been for the closure of the company she would still be employed with us and I am more than happy to recommend her.

Darren de Viell

Director
